Forecast for Tuesday 08 Feb 2022

Weather: A day of sunny intervals and sleet and snow showers, occasionally rain at lower levels. The showers will be quite frequent and heavy at times across in west, with the best of the shelter across eastern peaks such as the Trossachs.

Chance of cloud-free hill tops above 800m: 80% for any given time, but virtually nil at times due to the showery nature of the airstream.

Low Cloud and visibility: Good or very good becoming poor or very poor in showers, only a few meters in hill fog which sporadically lowers 450m as showers push through.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Met Office Aberdeen Meteorologist's View
Widespread severe wind-chill, particularly at height. Brief blizzards across higher summits.

Forecast for Wednesday 09 Feb 2022
Weather: Snow showers with outbreaks more frequent and heavier than Tuesday, again always more focused across western peaks, where there will be a risk of hail and thunder.

Maximum wind: Westerly initially mean 40-45mph with gusts reaching 60mph across most exposed ridges and summits, easing a little from mid-afternoon.

Chance of cloud-free hill tops above 800m: 70% for any given time, but virtually nil for extended periods due to the showery nature of the airstream.

Low Cloud and visibility: Good or very good becoming poor or very poor in showers, only a few meters in hill fog which sporadically lowers 300m as showers push through.

Temperature: **Glens:** Minus 2 Celsius increasing plus 5 Celsius during the afternoon
At 800m: Minus 5 Celsius
Freezing level: 300-400m
